Good afternoon,

Thank you for your survey request. As you can imagine, we receive plenty of correspondence, surveys and questionnaires. While we intend to respond to all of them, we are dealing with a short window in which to do so. We thank you for your patience and we will be in touch should the time allow for a fulsome response.

In the meantime, I encourage you to view and share our [platform](#) with your members which is a comprehensive plan for all Canadians.

Many thanks,
